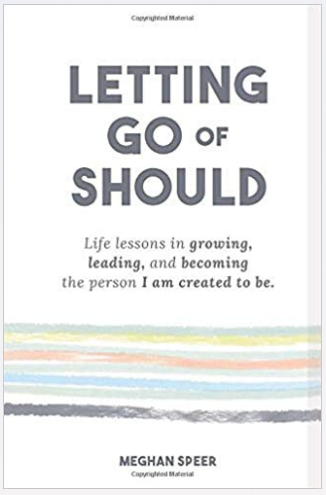
Letting Go of Should



THE INFLUENCE LAB

Redefining Global Mission Strategy in Today's Digital Age

Through training and the mentorship of Christian communicators around the world, our vision is to raise up the next generation of Christian media and entertainment professionals. Founded by media experts Phil and Kathleen Cooke, The Influence Lab focuses on global regions, mobilizing them to use media to create a powerful strategy and to teach the global Church how to use media to share the gospel in today's digital age.

Our ultimate goal is to impact global culture by changing the way we tell our story.
